E-Way Bill Update from 01 August 2026:

Key Changes Every Business Must Know

Introduction

GSTN has introduced important changes to the E-Way Bill system effective from 01 August 2026. These updates aim to improve transparency, tracking of goods movement, and GST compliance.

Key Changes

1. Mandatory Ship-To GSTIN

In Bill-To / Ship-To transactions, taxpayers must now provide the GSTIN of the actual consignee (Ship-To Party) while generating the E-Way Bill.

If the consignee is not registered under GST, URP (Unregistered Person) should be selected.

2. E-Way Bill Closure Facility

A new facility has been introduced to officially confirm the successful delivery of goods. The E-Way Bill can be closed by the supplier, recipient, transporter, or authorized person after delivery.

Impact on Businesses

Businesses should:

- Update ERP and billing software.
- Ensure proper capture of Ship-To GSTIN.
- Train accounting and dispatch teams.
- Review E-Way Bill generation processes

Conclusion

The new E-Way Bill rules will strengthen GST compliance and improve the tracking of goods movement. Businesses should update their systems and processes before 15 June 2026 to ensure smooth compliance.
